Welcome to the UR Museums! Applying what you have learned in class – use your own interpretations to separate elements within these abstract works in order to quantify/organize the artwork on view into data lists. Choose an image(s) to complete the questions below.

1)   What elements can you extract from this artwork? (ie: subject, line, color, shapes…)

2)   What could be measured in this image?

3)   How is it different from the other images?

4)   Do the variables that you measure help to make the differences clear?

4)   Would you hang this image in your home? Why or why not?
